PLS166 Series

Sound Steadfast Solutions

Made in the U.S.A.

Invasive Point Level System

Solar Powered Sensor

Description

The Ultrasonic Point Level System 166 Series is an ideal solution for detecting liquid in storage vessels, tanks and pipes using solar power. With integrated electronics it is designed for almost any liquid level application where supplying power is an issue. The probe is constructed in 316LSS material. The electronic module, solar power system and accessories are mounted in a powder coated die cast aluminum enclosure. No calibration for the system is required. A LED strobe indicator on the enclosure offers a visual status of the system. An audio alarm and reset switch is standard along with the battery status and a Demand Push button self-test feature on the electronic module assures the user the system is functioning correctly. A 0.5 second delay is added from WET to DRY to avoid false trip due to wave action.

Operation

The 166 Series unit consists of two piezoelectric elements mounted in the housing of the sensor. These elements convert mechanical energy in the form of high frequency sound to electrical energy and vice versa. The elements are mounted parallel and opposite each other across the 1/2" gap in the probe. A high frequency sound sent from the electronics to the transmitting element, this vibrates the element at 2 to 4 MHz. Neither Air nor gases will carry sound at this high frequency and will not travel across the sensor gap. When the gap is filled with liquid, the sound will travel across the gap to vibrate the receiving element. The vibration generates an electrical signal that is amplified and read by the detector circuit in the electronics as a "wet" signal. The signal is converted to a relay output or a shift in milliamp output

How to Order	PLS162-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	
Input:	12VDC	-	4						-												
Output:	Audiable and LED-	--	6						-												
Mounting:	Integral-	--	--	1					-

Applications	Industries served
High Level / Overflow Alarm	Upstream Oil & Gas
Low Level / Pump Protection	Midstream Oil & Gas
Condensate Pots	Water & Waste- Water
Sump Water / Oil Detection	Chemical & Petrochemical
Lubricant Circulation Equipment	Pulp & Paper
Fill Machine Level Control	Food & Beverage
Pump Leak Detection	Military, Subsea / Surface
	Maritime Shipping
	Inland Barges, ERC Cargo

Sensor material 316LSS is standard, other materials available
 Other flange and pressure ratings available
 Other remote mounted enclosures available
CONSULT FACTORY FOR CUSTOMIZATION

Specifications / Features

Dimensions

Repeatability: 2mm or better.
Delay (on): 0.5 seconds Standard.

Probe material: 316SS Standard.
Optional material available.

Actuation point: 4.0" Standard (integral).
Up to 99" available.

Sensor Temperature: -20° to 150°C
Sensor Pressure: 1000 PSIG 316LSS.
Liquid viscosity : From 1 to 75,000 cps

Process connection: 3/4" NPT Standard
Flanges mounting available.

Input options: Solar powered 12VDC,
Output: Audible Buzzer
Strobe LED

Push Button Demand Self-Test
Reset Audible alarm switch
12V Battery

Electronic mounting : Integral or Remote

CSA Approval (pending) Explosion Proof
Class I Group CD
Class II Group EFG
Class III Type 4. EP. IP 65.

Warranty

Sensaras' level sensors are warranted against inherent defects for a period of two years from the date of shipment.

Performance Guarantee

Should the unit not perform as we claim within 45 days of delivery and was properly installed consistent with our stated requirements and specifications Sensaras will gladly accept a return of the unit for a full credit.
